EDUCATION

SRM INSTITUTE OF SCIENCE AND TECHNOLOGY

B.Tech Computer Science and Engineering with specialization in Big Data Analytics

June 2024 - May 2028

CGPA : 9.56/10

JP INTERNATIONAL

Grade XII (CBSE)

June 2022 - May 2023

Percentage : 74.6%

SKILLS AND INTERESTS

- **Programming languages** : C, C++, Java
- **Frontend Development**: HTML5, CSS3, JavaScript, React.js
- **Backend Development**: Node.js, Express.js
- **Databases**: MongoDB, MySQL
- **Tools and Platforms** : Git, GitHub, VS Code, SQLite.
- **Soft Skills** : Team collaboration, Communication, Leadership, Creative & Critical Thinking
- **Interests**: Web Development, Artificial Intelligence and Generative AI, Startup & Entrepreneurship, Building Real-World Projects

PROJECTS

Fly-Ease – Smart Flight Booking System:

- Built a full-stack flight booking system using HTML, CSS, Java, and MySQL for searching and reserving flights.
- Developed **responsive UI pages** for flight search, booking, and user dashboard with smooth navigation.
- Implemented **Java backend logic using JDBC** to handle authentication, flight search, and booking operations.
- Integrated features like **booking confidence score, crowd level indicator, and waitlist management** to improve user decision-making.

WhatNext!! – AI Career Clarity Tool (Ongoing Project):

- Built an **AI-powered career guidance platform** that analyzes student interests, skills, and academic profiles to recommend personalized career paths and learning roadmaps.
- Implemented an **NLP-based profile analysis layer with SBERT embeddings** to perform semantic matching between student profiles and relevant career domains.
- Developed a **personalized recommendation engine inspired by reinforcement learning** to continuously refine career suggestions based on user interactions and feedback.

EXPERIENCES

Frontend Developer Intern – LaunchED Global (March 2025 to April 2025)

- Developing responsive and user-friendly web interfaces using modern frontend technologies.
- Implementing components and features to build scalable and efficient web applications.

Undergraduate Research Contributor – SRM IST Ramapuram 2026 – Present

AI Career Navigator – Research Project (Ongoing)

- Researching AI-based career guidance systems integrating personality analysis and skill-based recommendations.
 - Studying career psychology models (RIASEC & SCCT) to design intelligent recommendation algorithms.
 - Working on data analysis and system design for **personalized career navigation platforms**.
-

ACHIEVEMENTS

- Achieved a CGPA of 9.56/10 in B.Tech Computer Science and Engineering (Big Data Analytics), demonstrating strong academic performance.
- Selected as a Frontend Developer Intern at LaunchED Global, contributing to the development of responsive and user-friendly web interfaces.
- Actively participate in hackathons and technical competitions to strengthen problem-solving skills and gain practical development experience.
